Lab 5.1 source pack

All records are fictional training data. They describe no actual facility, person or organisation. Values are teaching assumptions, not approved design criteria. Do not use outputs to operate, maintain or approve real equipment.

DES-01-rev2.md

DES-01 Pump design note revision 2
Fictional training reference. Effective 2026-08-01. Supersedes revision 1.
Clause 2 Duty
Nominal delivery is 50 m3/h at 30 m head.
Clause 3 Classroom acceptance
The teaching acceptance band is plus or minus 5 percent of nominal delivery, hence 47.5 to 52.5 m3/h. Record three readings at agreed duty, instrument identity and witness. This is not a published engineering standard.
Clause 4 Materials
Wetted materials remain TBD pending fluid identification and compatibility review.
Clause 5 Release
Responsible engineer review is required before any real-world use.

DES-01-rev1.md

DES-01 Pump design note revision 1
Fictional training reference. OBSOLETE. Superseded by revision 2.
Clause 2: preliminary nominal flow was 45 m3/h. Do not use this superseded duty for a new specification.

OM-01.md

OM-01 Dosing skid information revision 1
Fictional training reference only. Clause 1: four elements are T-1, DP-1, CV-1 and FT-1. Clause 2: the training case has annual FT-1 calibration and effectiveness has not been demonstrated. Clause 3: abnormal readings need investigation; no cause is established by this manual. Clause 4: no chemical identity or operating instructions are supplied. Refer operational decisions to approved site procedures.

PRJ-01.md

PRJ-01 Past project summary revision 1
Fictional training project. A calibration evidence gap delayed draft approval by two working days. Reviewers requested a source register and explicit ownership. No conclusion about PS-17 root cause follows from this separate project.

RESTRICTED-TEST.md

Restricted permission test document
Entirely synthetic. Sentinel value: PURPLE-OTTER-731. This file is used ONLY in a trainer-created restricted test library. A learner test account must have no access to this document. A successful negative test does not disclose the sentinel or document content. No real restricted information is included.
